

# Surface Cleaners 500 bar

Treatment of large surfaces like industrial surfaces, carriageways or gratings need special cleaning tools.

Technical Data	BRW 530 INOX
Working width	500 mm
Max. working pressure	500 bar
Max. temperature	90°C
Weight	25 kg
Order-No.	10.800.820

For explosion endangered areas:

Technical Data	BRW 550 INOX Ex
Working width	500 mm
Max. working pressure	500 bar
Max. temperature	90°C
Weight	25 kg
Order-No.	10.800.890

A recoil driven nozzle bar allows effective removal of resistant layers of different composition like paint, oil polluted areas or vast natural stone spaces.

Different designs allow adequate adjustment to the given working site. The robust swivel is designed for feeding temperatures up to 90°C.

Turbo grating blaster:

Technical Data	BRW 508 INOX
Working width	500 mm
Max. working pressure	500 bar
Max. temperature	90°C
Weight	27 kg
Order-No.	10.800.891
